

# ICCECIP 2024

**Welcome to the 6<sup>th</sup> International Conference on Central  
European Critical Infrastructure Protection,  
7 - 8. November 2024,  
Budapest, Hungary**

## General

The „**ICCECIP 2024—6th International Conference on Central European Critical Infrastructure Protection**” will be held this year as part of the Hungarian Science Festival in personal form in Óbuda University Bánki Donát Faculty of Mechanical and Safety Engineering on 7-8 November 2024. The weather conditions of recent years have shown the importance of the water, which in itself is a prominent element of critical infrastructure, in everyday life. Water, which is the constituent of living organisms, can be both a blessing and a curse. A lot of water can appear as a devastating price, while a lack of water can cause drought and famine.

The motto of this year’s conference is:

***“Water as a cardinal area of the critical infrastructure protection.”***

The key goal is to highlight the unity of our region and give space for all researchers around the World, experienced and young researchers, and PhD students to share their latest results and the public. The region’s common historical and cultural past, as well as the common development path of the last centuries of continuous cooperation, connects our countries and lays the foundations for future common goals. The ICCECIP 2024 also serves to foster communication among researchers and engineers working in a wide variety of scientific areas with a common interest. The meeting will provide an opportunity to highlight recent developments and identify emerging and future growth areas in this exciting field. Also, the conference program includes oral presentations and poster sessions from scientists working in similar areas to establish a platform for collaborative research projects in this field.

## Aim and scope

The conference will cover experimental, theoretical and numerical aspects of critical infrastructure protection. Research work based on specific industrial applications is welcome. The following main sessions are proposed:

- Physical Protection of Critical Infrastructure
- Cyber Security of Critical Infrastructure
- Political Security of Critical Infrastructure
- Individual Security of Critical Infrastructure

## Important Dates

- Registration with abstract up to 4th October 2024
- Acceptation of the registration 7th October 2024
- Deadline of the article 31st December 2024

## Registration

<https://iccecip.hu>

## Venue

Óbuda University Bánki Donát Faculty of Mechanical and Safety Engineering,  
Budapest 1088, József boulevard 6. Hungary

Conference room: J200

## Publication

The presentation and the article template are available on the conference website:

## Organizer

**ÓBUDA UNIVERSITY**

BÁNKI DONÁT FACULTY OF MECHANICAL  
AND SAFETY ENGINEERING

## Cooperation with

Faculty of National Security of  
Piotrków Academy in Piotrków  
Trybunalski, Poland

Universiapolis – International  
University of Agadir,  
Morocco

Gheorghe Asachi Technical  
University of Iasi, Romania

University of Defence in  
Brno, Czech Republic

Military University of  
Technology, Warsaw, Poland

University of Ljubljana,  
Ljubljana, Slovenia

National University of Kharkiv,  
Ukraine

University of Lorraine, Metz,  
France

Subotica Tech – College of  
Applied Sciences, Serbia

University of Žilina Faculty of  
Security Engineering  
Department of Security  
Management in Žilina,  
Slovakia

Technical University of Ostrava,  
Ostrava, Czech Republic

1 Decembrie 1918 University  
of Alba Iulia, Romania

Óbuda University Doctoral School on Safety and Security Sciences, Budapest,  
Hungary
